designs for the sleep of your life

High-Performance Stretch Zippered Cover

High-performance stretch zippered cover provides a luxurious sleeping surface that enriches and enhances the sleeping environment.

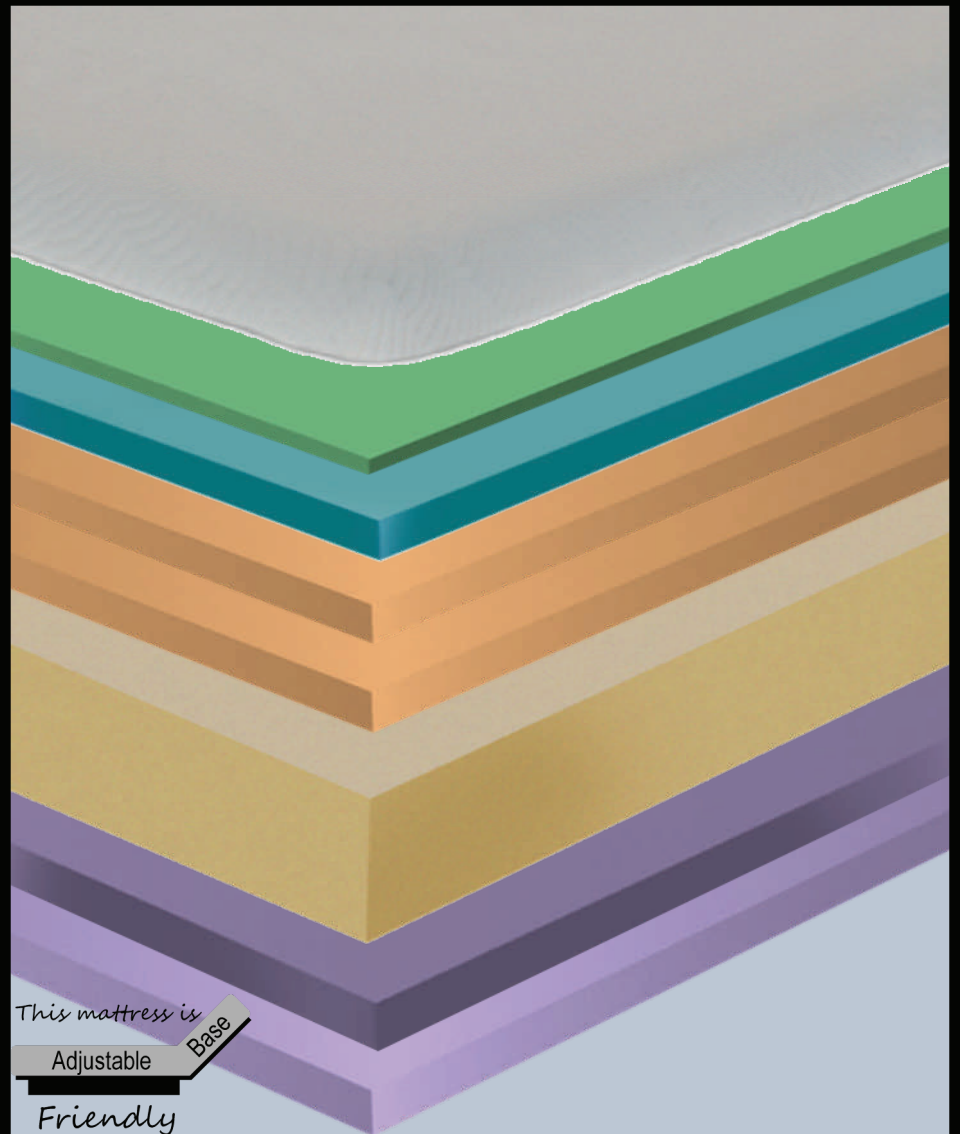

Gel-Infused Memory Foam

Gel infused memory foam to help maintain your body temperature for a deeper sleep. It's designed to absorb and distribute pressure.

High-Density, Plush Foam Core

Contains high-density cells that achieve the comfort level needed in a mattress. It has an excellent initial comfort and luxurious feel. Not only is it initially soft, but the high-density cells won't bottom out over time.
